Summer in Full Swing

July, and no sign of a lull.

Summer in Full Swing

Inside:

Polos and tees still leading the way, why summer's the smart time to book your uniform fitting, a note on late-season stock, and what's kept the machines busy this month.

Welcome back to Thread & Print. July already, and the warehouse hasn't slowed for a second. Summer's peak season for us, trade teams topping up their kit, clubs sorting the season ahead, and schools starting to think about September. The embroidery machines have barely stopped.

Polos and tees, doing the heavy lifting

If June was about the summer switch, July's about keeping teams kitted through the busiest stretch of the year. CoolPlus polos and branded t-shirts are still the workhorses, embroidered up in customer colours and out the door fast.

They're heading to trade teams who need something breathable on site, hospitality crews working the summer events season, and clubs refreshing their off-pitch kit. Lightweight, hard-wearing and branded properly, the everyday stuff that makes a team look sorted.

Still in heavier kit? There's no better time to make the switch.

Polos that earn their keep

Not all polos are built the same. We supply the ones that hold their shape, keep their colour and take a logo cleanly, wash after wash. Embroidered or printed to match the rest of your kit.

Booking up for Summer

Sorting uniform for September? Summer's the time to do it, not the last week of August.

You can book a uniform fitting online in a couple of minutes, and we've popped a quick how-to video on our socials. Getting booked in early means less queuing, more choice, and no last-minute panic.

Worth flagging: once the back-to-school rush hits we can't guarantee stock on everything past late August, so the earlier you're in, the better.
