

# Thread & Print

On to Autumn

**Summer's done, and  
the mornings are  
turning.**

## Inside:

A proper thank you after a big back-to-school, the new autumn workwear ranges landing, a schoolwear reminder for the bits that go missing, and what's been on the machines.

Welcome back to Thread & Print. That's summer done, and what a stretch it's been. Embroidery running flat out, the print press earning its keep, and a lot of very full delivery boxes. Thank you to every business, school and club who kept us busy. Now the nights are drawing in and the autumn ranges are landing.

## Thank you, from all of us

Before we look ahead, a proper thank you. Back-to-school is our busiest time of the year, and this one was a big one, eighteen schools kitted out from our Flitwick shop alone, and plenty more besides.

To every school, every parent and every member of staff who chose us this year, whether it was one jumper or a full kit list, it means a lot. That's eighteen local communities who trusted us with their uniform, and we're grateful for every one.

Summer, as it happened: machines flat out, boxes packed to the brim, and a brilliant few months. Now, on to autumn.

## Autumn workwear's landing

Autumn's creeping in, so now's the time to sort the team before the colder mornings really set in. The new ranges are here, everything from t-shirts and polos to hoodies and quarter zips. Add your logo with our embroidery and print, or take it plain, whatever works.

## Lost a jumper already?

**Three weeks in, and the jumpers have started disappearing. It happens every year.**

If you need a replacement, a spare, or PE kit in the next size up, we've got school uniform in stock in both shops and online, no waiting for the next big order to come round. Pop into Barton or Flitwick, or order online whenever suits.

**SCHOOL UNIFORM**

### On the machines this month:

Eighteen schools kitted out from the Flitwick shop alone over the summer.

Embroidery running flat out and the print press earning its keep.

The first of the autumn workwear ranges landing, hoodies and quarter zips.

Replacement jumpers and PE kit going out as term settles in.
